

Like its name "Gentle Dentistry" is a full-service, multi-specialty practice for all ages that strives to provide minimally invasive dental care supported by today's most advanced technologies. Dr. Andrew Spector, one of the most trusted experts in restorative and cosmetic dentistry, specializes in cosmetic smile makeovers and is celebrated in the field for his expertise in technology driven care that can simplify even the most complex procedures. Combined with a distinguished team of specialists and highly trained compassionate staff, the practice is uniquely qualified to handle all dental needs under one roof.

With a focus on aesthetics, the team uses state-of-the-art 3D imaging, digital scanning and the most advanced laser care to perform procedures including Dental Implants, full mouth reconstruction and cosmetic dentistry in a never-ending endeavor to make your family's dental care effortless and to ensure that every case is completed to the utmost of perfection. The practice also offers laser dentistry, sleep Apnea care, same-day Cerec® crowns and two visit smile makeovers.

Dr. Spector has built a long-standing relationship with a world-renowned aesthetic lab based in New York to create a personalized smile design that satisfies even the most challenging cases. "The laboratory translates my vision into the desired result the patient and I hope to achieve," says Dr. Spector. "Together we are able to provide the dental artistry that guarantees you will be beyond satisfied from start to finish."

Dr. Spector is also a passionate educator and renowned lecturer. He has trained more than 2,000 dentists on the newest dental techniques and restorations. He teaches 300 hours a year of hands-on, nationally recognized coursework to aspiring esthetic and implant dentists around the world. Dr. Spector has been awarded a Fellowship of the Academy of General Dentistry, The International Congress of Oral Implantology and The International Academy of Dental-Facial Aesthetics.

Andrew M. Spector, D.M.D., F.A.G.D., F.I.C.O.I.

"My passion revolves around the ability to craft the smile that you desire and together we envision. My priority when consulting with a patient who is expressing interest in cosmetic care is to listen and determine the best enhancements for their individual and unique smile, based on their expectations and my years of experience," Dr. Spector states. "Our Digital Previews allow the patient to try on the discussed smile and experience how a well-done smile makeover can change their lives," he adds.
